

ADELAAR

Beyond Komodo and Whale Sharks Bali to Maumere

Bali to Maumere | Moyo, Sangeang, Komodo National Park and Palue

Komodo National Park has reefs as colourful as tropical reefs can get, bathed in a dazzling explosion of fish life.

One whole day is given to manta rays, with the elusive torpedo rays after dark.

The seamounts and drift dives around the Gili Lawa islands are deservedly among the signature dives of the archipelago.

On the way, the black sandy slopes of Sangeang hide critters, and Banta holds turtles, sea snakes and reef sharks.

The trip ends on the volcanic walls of Palue, covered in soft corals and gorgonians.

Your itinerary

DAY 1

Bali

After boarding Adelaar in Serangan in the South of Bali, you will enjoy your first day on board whilst cruising along the Bali coast in the afternoon before crossing the Wallace line in the evening.

DAY 2

Moyo

2 to 3 day dives

Clear, warm water with lots of fish await you on the first day of diving on the seamounts off the island of Moyo.
An optional village visit with a stroll to a nearby waterfall is also possible.

DAY 3

Sangeang

3 day dives, 1 night dive

After a second night's crossing, the critters inhabiting the colourful reefs of Sangeangs rich black sandy slopes are waiting to be discovered.

DAY 4

Banta

3 day dives, 1 night dive

A completely different underwater landscape provides the setting for today's underwater adventure.
The hard coral formations on Bantas white sandy substrate are the home of a multitude of fish, turtles, sea snakes, reef sharks and the occasional eagle and manta rays.

DAY 5

South Komodo National Park

3 day dives, 1 night dive

This whole day is dedicated to rays: during the day we check out 'Manta Alley', arguably one of the world's best sites to observe the gentle giants, and in the evening we look for their smaller cousins, the elusive torpedo rays.

DAY 6

South Rinca Komodo National Park

Extraordinarily healthy and unique reefs that shelter an abundance of weird and wonderful critters make this part of the Komodo national park a photographer's dream. (3 day dives, 1 night dive) Born to explore

DAY 7

Central Komodo National Park

2 day dives, 1 night dive

In the morning we visit the island of Rinca to spot some of the terrestrial wild life found in the park, with the Komodo dragons as highlights.
After the walk we'll dive some of the action packed sites of the central section of the park, stunning coral reefs bathed in a dazzling explosion of colourful fish life, that will make any diver beg for more of the same.

DAY 8

Gili Lawa North Komodo National Park

3 day dives, 1 night dive

The seamounts and drift dives around the Gili Lawa islands in the northernmost part of the park are deservedly amongst the signature dive sites of the Komodo archipelago, a real diver's dream. In the evening, the effort of climbing up to the view point will be rewarded with a glorious sunset over the whole national park.

DAY 9

Tatawa K0Modo National Park

3 day dives

The constant current feeding the corals around the Tatawa islands make sure that the surrounding reefs are as colorful as tropical reefs can get, an adequate setting for our last dives in the park.

DAY 10

Palue

2 day dives

The steep walls of the volcanic Island Palue to the North of Central Flores are covered in soft corals and gorgonians, with a bit of luck we might even spot a pygmy seahorse or some of the rare nudibranchs found on these reefs.
After the morning's diving, we'll pull up the sails and start the final stretch of our voyage.

DAY 11

Maumere

After a last delicious breakfast it is time to say goodbye and disembark - until the next time.
