

ADELAAR

Komodo Exclusive

Labuan Bajo to Labuan Bajo | Komodo National Park, Sangeang and Banta

Sangeang rises majestically from the sea at sunrise, a volcano still emitting the occasional puff of smoke.

Underneath, its black sandy bottom has gaseous sulphur bubbling up from the sand, like swimming through an underwater jacuzzi.

The central part of Komodo National Park is known as current city, where strong tidal currents bring lots of action, exhilarating drift dives and often mantas.

The far south has cooler, nutrient-rich water that is perfect for mantas.

Ashore, a ranger-guided hike looks for Komodo dragons in the only natural habitat of these giant monitor lizards.

LENGTH	DEPARTURE PORT	ARRIVAL PORT	EXPERIENCE
11 days / 10 nights	Labuan Bajo	Labuan Bajo	Certified divers

Your itinerary

DAY 1

Labuhan Bajo, Flores

2 dives

A domestic flight from the island of Bali or Jakarta brings you to the harbour town of Labuan Bajo on the island of Flores.
You are greeted at the airport by our staff and transferred to your hotel (on day before departure) or to the harbour where Adelaar is anchored (on the day of departure).

DAY 1

Labuhan Bajo, Flores (continued)

2 dives

As soon as everyone is aboard, we depart the harbour, with destination Sabolon island, where we will do 2 check dives.
We anchor in a quiet bay for the night.

DAY 2

Sangeang Volcano

3-4 dives

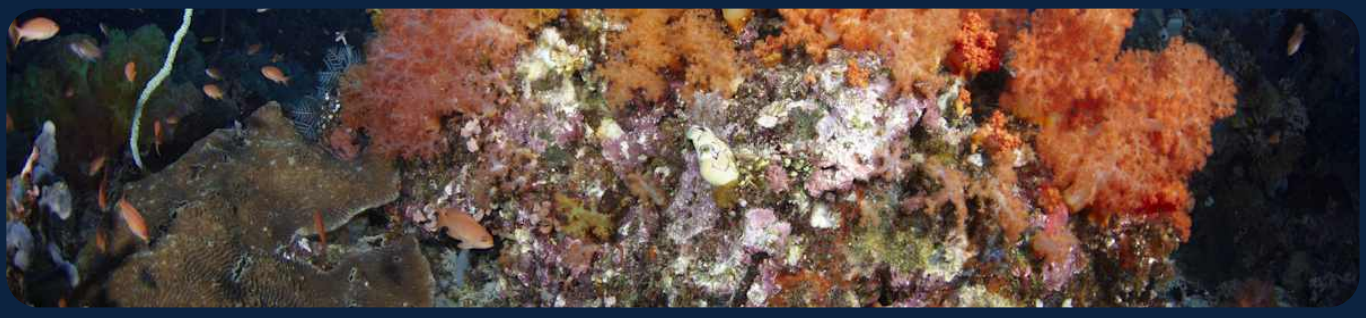

A very early morning departure, with destination Sangeang, a volcano whose most recent eruption was in 2014.
Upon our sunrise approach, Sangeang rises majestically from the sea, emitting the occasional puff of smoke.
The black sandy bottom of this site makes for spectacular diving.
In places, a steady stream of gaseous sulphur, bubbles up from the sand making its way towards the surface.
Swimming through, you have the feeling of being in an underwater jacuzzi!
We will anchor just outside the village for the night, with a night dive planned.
If we arrive early enough, there is a chance to go ashore to visit the village.

DAY 3

North Komodo National Park

3-4 dives

We depart Sangeang Island very early morning with destination Banta Island, which lies just outside the park boundary.
We plan two dives here on Banta's northern coastline.
During lunch we cross to enter the Komodo National Park and plan our first stop in North West Komodo.
Our afternoon and night dive will be in this bay.
We anchor here for the night.

DAY 4

North and Central Komodo National Park

3-4 dives

During breakfast we move to the north of Komodo.
We spend the day diving around the northern boundary of the park, off the uninhabited islands of Gili Lawa Laut and Gili Lawa Darat.
At sunset we move in closer to Komodo bay for our night dive.

DAY 5

Komodo National Park - Komodo Island

Dragons!
We go ashore at 7:00 AM for a ranger guided hike into the interior of Komodo Island, to look for Komodo dragons.
This UNESCO World Heritage site is the only natural habitat of these giant monitor lizards.
The area was designated as one of the New 7 Wonders of Nature in 1991.
Once safely back aboard, we move around the corner to our dive site just off Komodo's famous pink beach.
During lunch we travel south for an afternoon dive along the coast of Komodo.
At dusk, we dive Lehok Sera to search for the elusive mandarin fish. (3 dives) Born to explore

DAY 6

South Komodo National Park

3-4 dives

This morning we move to the extreme southern end of Komodo Island to our dive site, Manta Alley.
This area typically has much cooler temperatures with nutrient rich waters, perfect for Mantas!
After our two dives here, we enjoy lunch as the boat moves to southern Rinca to an area known as Nusa Kode.
With the towering cliff walls surrounding all sides, the landscape in this remote destination is breath-taking.
The resident dragon population likes to sun themselves on the beach from time to time.
Catch a glimpse of these prehistoric animals from the safety of Adelaar's main deck.
After the sun sets, we prepare for a night dive, and then a late dinner.

DAY 7

South Komodo National Park

3-4 dives

This morning we are diving the Southeast corners of Horseshoe Bay in Nusa Kode.
At lunch we move north to Padar for an afternoon dive.
Just before sunset, we go ashore and hike across Padar to a beautiful crescent bay, with a perfect view of the sunset.
Alternately, for those who prefer to be underwater, a night dive is planned.

DAY 8-9

Central Komodo National Park

8 dives

We enter the central park area, also known as ‘current city’.
This area of the park is subjected to the strong tidal currents that run through the Lintah Strait, bringing with them, plenty of marine life.
These currents make for lots of action and exhilarating drift dives.
Mantas are often seen in these parts.
We spend the next two days diving the central park dive sites, with a night dive planned each evening.

DAY 10

Sebayur and Pungu

3 dives

Our last diving days is spent around the island of Sebayur just north of the park.
For the afternoon, keeping our no-fly time in mind, we plan a tour of the Atlas Pearl Farm on Pulau Pungu.
With their environmentally friendly approach, they assure a healthy ecosystem, essential for the finest white and silver pearls to be grown.
We anchor here for the night.

DAY 11

Labuhan Bajo, Flores

We arrive in Labuan Bajo in the morning at 7:00 AM.
Disembark after breakfast for your onward journey.

GOOD TO KNOW

On land and on the way

Water sports

For non-divers, as well as snorkelling, the boat has stand-up paddle boards and a two-person kayak. Not every area is suitable, and the cruise manager finds the right times and places.

Small groups

Adelaar takes a maximum of 8 guests, with a Western cruise manager who is also a PADI dive instructor, a divemaster and a crew of ten.

Check in

Our team collects you from the airport or your hotel and takes you to the harbour where Adelaar is anchored. On the day before departure you can be taken to a hotel.

Check out

After breakfast on the last day you disembark, with an airport or hotel transfer. Please arrange your flight with the no-fly rule in mind.

Itinerary

All routes are examples, and the final plan depends on the weather, the sea conditions and any permissions.

INCLUDED
