Your itinerary

DAY 1

Bali

Your expedition begins at Serangan Harbor.
After a private transfer from the airport or your hotel you are welcomed aboard Adelaar with a drink and fresh tropical fruit, followed by a safety and diving briefing.
As Adelaar sets sail, Mount Agung stands over the departure, and with good seas dolphins may join us as we head east through the night.

DAY 2

Moyo and Satonda Islands

4 dives

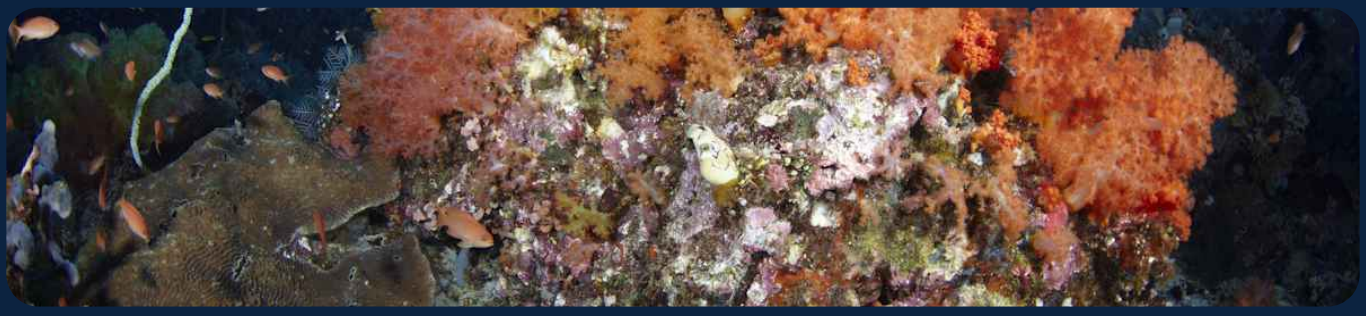

We wake off Moyo island.
Three day dives cover coral gardens full of reef fish, with reef sharks, turtles and rays, plus a night dive for the macro life.
Snorkellers can visit a coral sandbank offshore, and a short walk or bicycle ride on Moyo leads to a hidden waterfall.
Later we go ashore on Satonda to see its saltwater lake in an old volcanic crater.

DAY 3

Teluk Saleh

3 dives

Deep in Sumbawa, Teluk Saleh bay shelters whale sharks that gather around the local fishing platforms.
The morning has two long sessions of diving or snorkelling with them, observed from the surface or just below under strict conservation rules, and the afternoon has a third dive in the north of the bay.

DAY 4

Sangeang Volcano

3 dives

Sangeang is an active volcano with twin peaks of 1,949 and 1,795 metres.
Below the surface, black sand slopes are covered in soft corals and macro life, and some sites have the warm bubbling gas vents known as the champagne dive.
Where conditions allow we land and walk to a village of boat builders.
By evening Adelaar moves toward Komodo.

DAY 5

North Komodo

4 dives

We wake near Gili Lawa Darat and Gili Lawa Laut.
The dive sites include Castle Rock, Crystal Rock, Shotgun and Golden Passage, with current-swept channels, reef sharks, giant trevally, eagle rays and schooling fish.
The protected bays between the islands also make good night dives.

DAY 6

Komodo Island

3 dives

We begin ashore on Komodo at first light and walk with park rangers to look for the Komodo dragon.
After breakfast, the tidal waters of central Komodo bring turtle reefs, drift dives and seamounts, with one more dive in the afternoon and a night dive.
If conditions suit the south we may visit Pink Beach or Teluk Loh Serah.

DAY 7

South Komodo and Padar

2 dives

Southern Komodo opens to the Indian Ocean, and the upwellings bring manta rays.
At the Manta Alley cleaning station we spend time with them.
After the last dive near Padar we go ashore for the late afternoon climb to the famous viewpoint, then cruise toward Labuan Bajo, passing Kalong island where thousands of flying foxes take off at sunset.

DAY 8

Labuan Bajo

After a last breakfast on board you disembark in Labuan Bajo on Flores.
This is a sample itinerary and can change with the weather and sea conditions.
