Komodo Extended and Whale Sharks Labuan Bajo to Bali

Labuan Bajo to Bali | Komodo National Park, Sangeang and Moyo

Manta rays are the headline in the cooler, nutrient-rich waters of Komodo's far south, and a whale shark excursion in Teluk Saleh is offered as an extra.

Further north, strong tidal currents run through the Lintah Strait, making lots of action and exhilarating drift dives.

In the south, a macro temple is a photographer's dream come true, below towering cliff walls where Komodo dragons sun themselves on the beach.

The trip winds west to Sangeang volcano, where gaseous sulphur bubbles up from the black sand like an underwater jacuzzi.
