

## TRITON BAY & EAST BANDA

Southeast of the 'bird's head' we treat ourselves to one scenic delicacy after another – over and under water.

For this itinerary we start in Kaimana and disembark in Saumlaki.

Triton Bay concineswith its unique and intact underwater world, lush gardens of soft- and black corals, schools of fish, wobbegong sharks, amazing macro with some of the most favorite critters.

Visibility averages usually around 10m due to the enormous amount of plankton and nutrition coming through this area, but everyone who visited this place will tell you it is worth it once you put your head underwater and enjoy what Triton Bay has to offer.

Closer to Kaimana, we will also give you the special opportunity to dive with whale sharks at the famous Bagans (fishing platforms), which also are frequently visited by different species of dolphins.

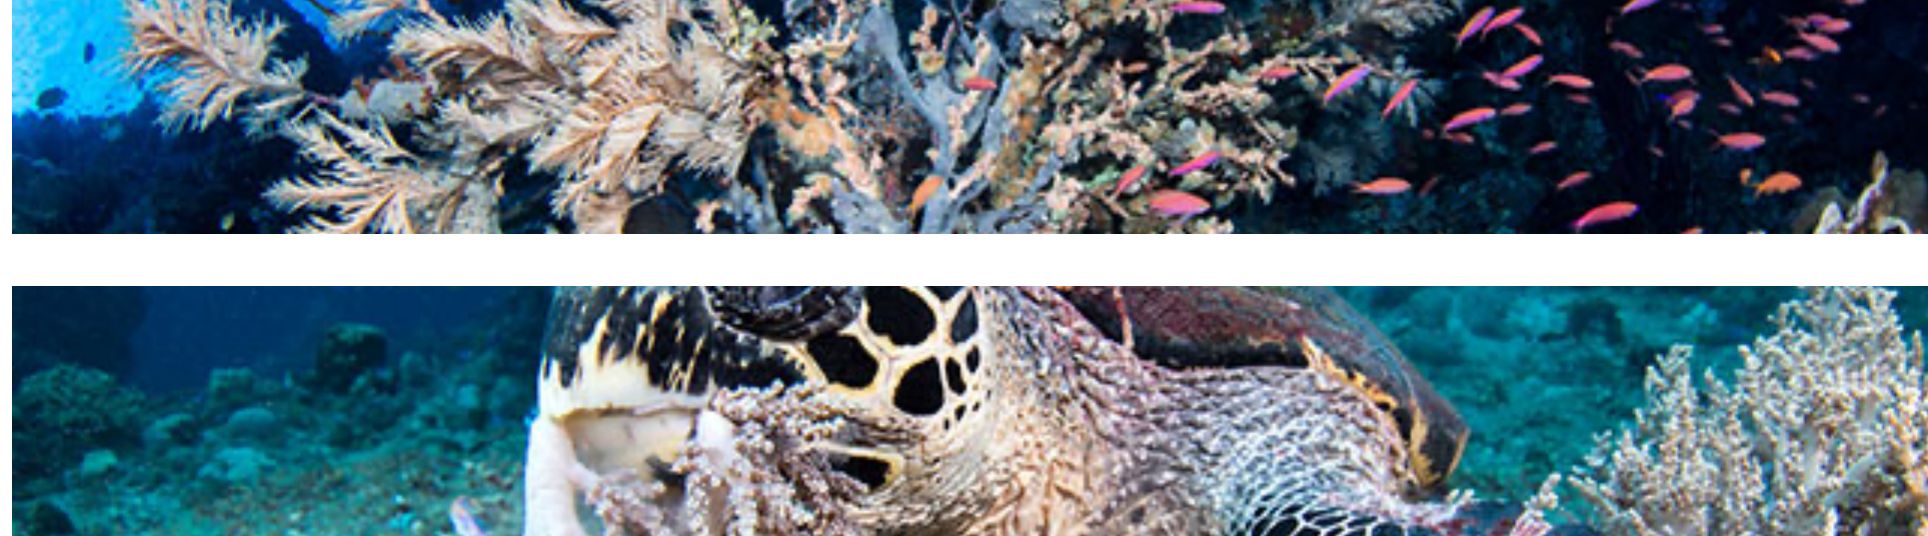

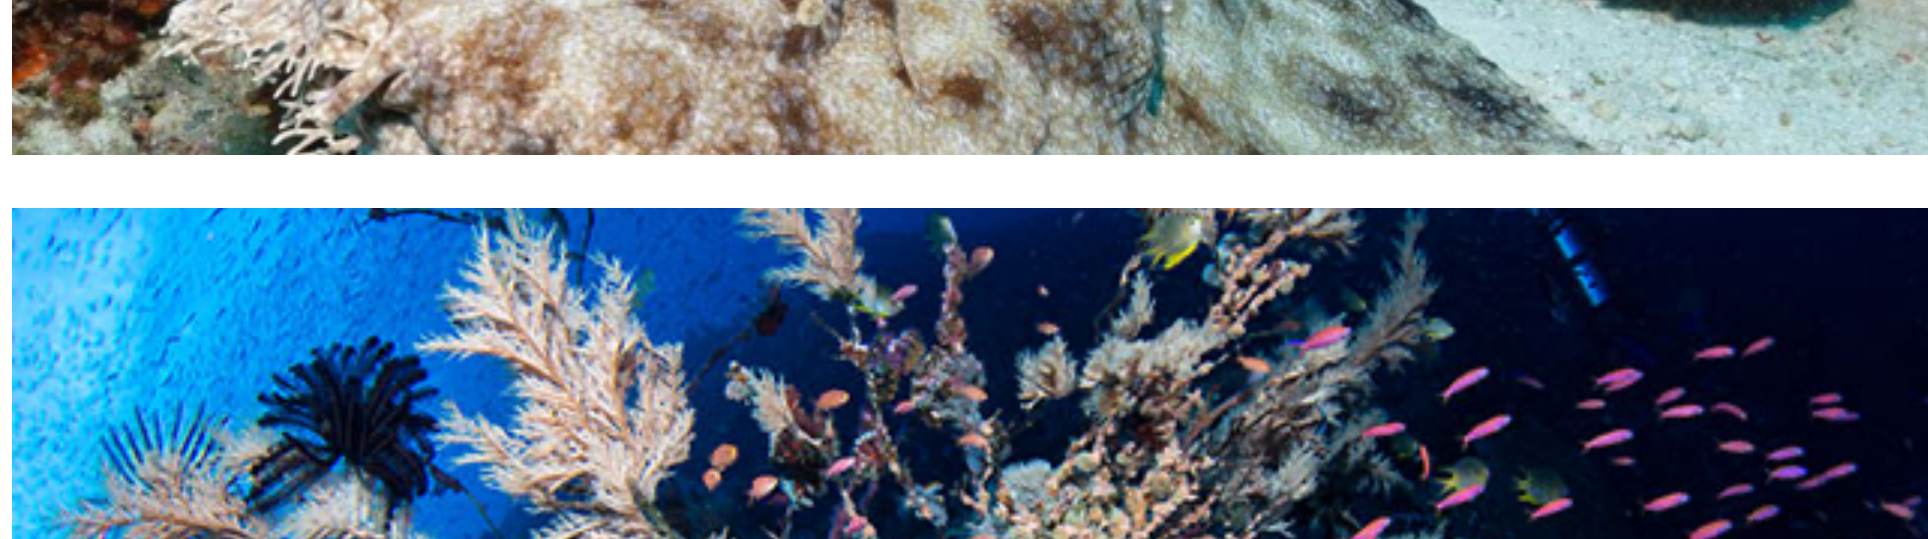

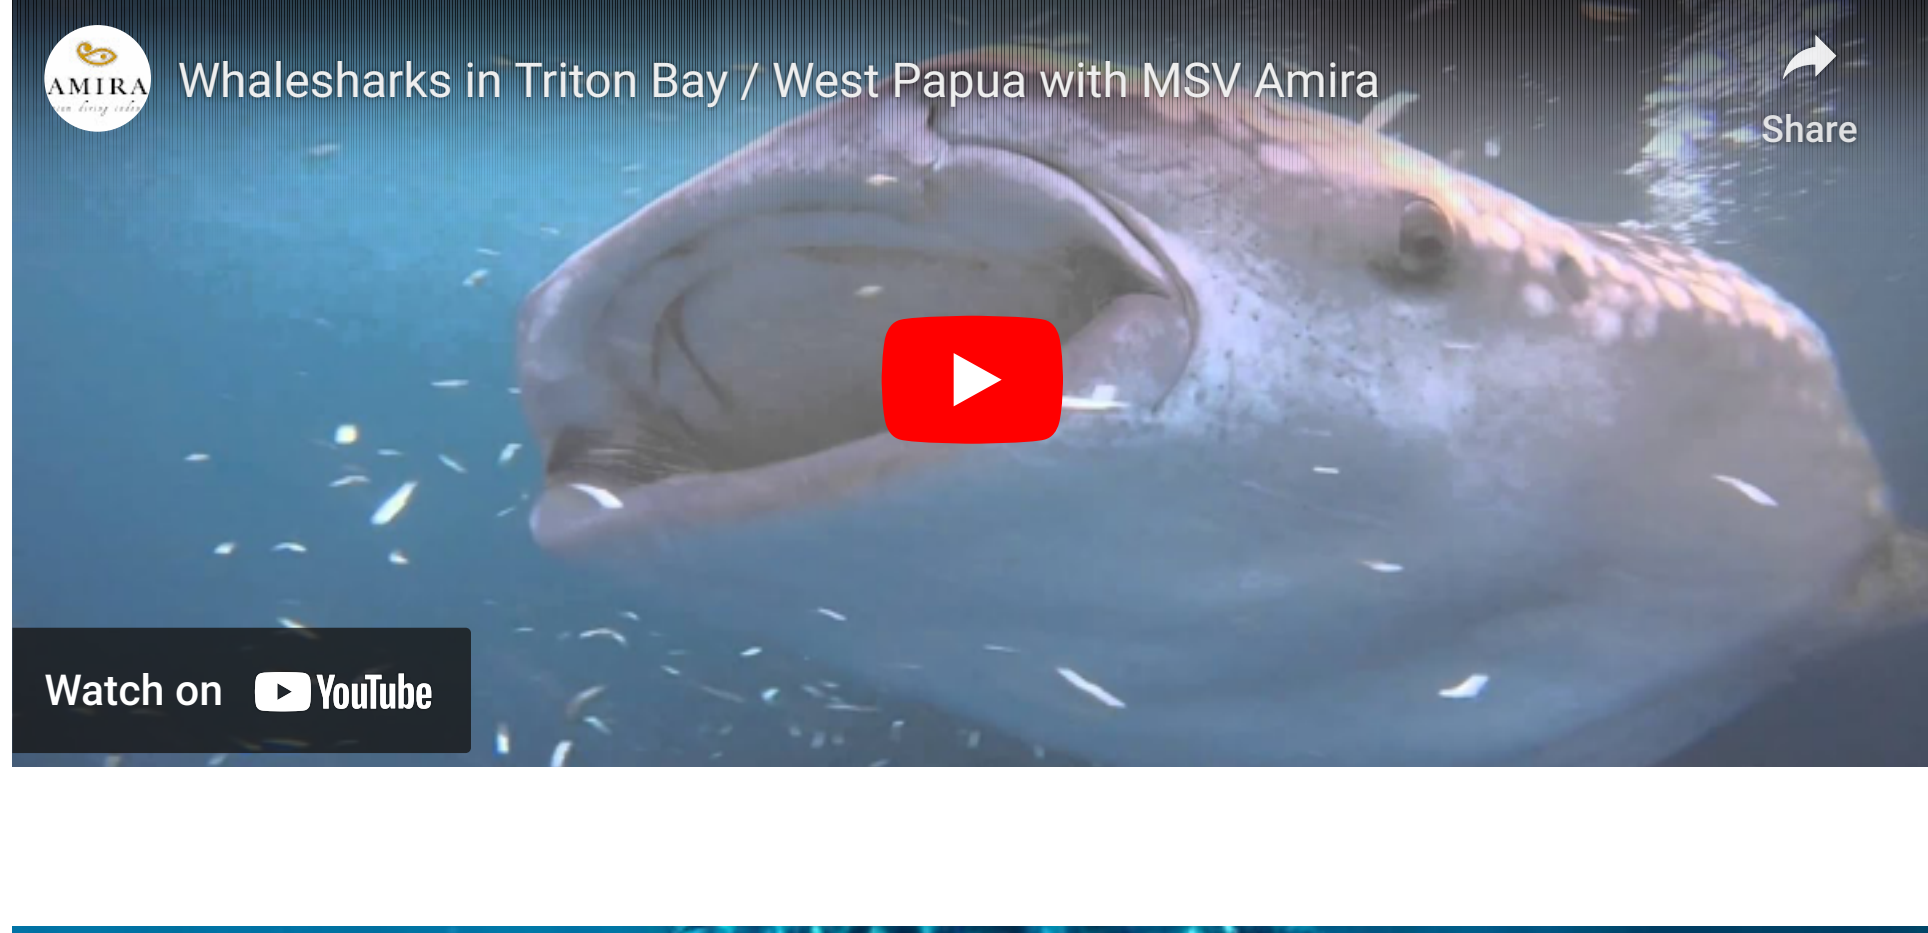

After a few days in this area, we start our journey through the eastern Banda Sea with steep drop offs and generally clear waters. Stunning reef tops, healthy corals, schools of fish and remote islands make the perfect combination and variety for this itinerary.

During crossing times there will usually only be 2-3 dives per day.

Water temperatures: generally warm between 27-30C

Current: mild to medium

Also suitable for experienced Snorkellers and Free divers
