

BLUE LOTUS

5D4N Komodo

Labuan Bajo to Labuan Bajo | Batu Bolong, Castle Rock and Manta Point

Komodo's premier dive sites run from the strong-current drifts of the north to the majestic manta rays.

In North Komodo the currents are exhilarating, with coral gardens, a variety of fish, schools of fish and perhaps some larger pelagic species.

Elsewhere the reefs are rich in vibrant marine life and beautiful coral formations, and manta rays join the diverse ecosystems.

Night dives bring the underwater topography and its marine species to life under the stars, and a muck dive can turn up pygmy seahorses.

On land, a trek on Rinca finds the famous Komodo dragons, with stunning views.
