

CENTRAL ATOLLS ROUTE

This is the best well-known route in the Maldives but at the same time it is the one that offers the best and most varied dives. We go on this route 10 months a year (except June) with weekly departures. Thanks to that, we know every detail, atoll, passage, thilas and where and when it is convenient to approach every dive zone.

It is a 7-night route including 6-dive days on board with embarkation and disembarkation at the Male Airport (18 dives with 2-night dives).

The itinerary goes by North Male, South Male, Felidhoo and Ari Atolls.

The aim is to find pelagic, grey sharks, white-tip sharks, black-tip sharks, and in some occasions, hammerheads and dolphins, eagle rays, schools of colorful fishes, morays, tuna fish, gild-head breams, groupers and turtles. Drifting dives in water passages and canals, thilas (submerged coral "seamounts"), cleaning stations where big mantas gather together to be deworn and the search of the whale shark (and if we are lucky will snorkel and even dive with the biggest fish). We will dive into a full-of-life wreck. Besides, there will be two of the most spectacular night dives in the world: one with mantas and the other with dozens of nurse sharks.

Desert islands and typical fishermen villages are also visited to discover and enjoy a bit more of the country and if the weather allows doing so we will even have BBQ lunch on a island.

Although if you are looking to relax, you can enjoy the solarium and the jacuzzi on board, kayak, Paddle SUP...

All that will make an excellent and unforgettable and amazing Great Dive Travel for divers and non-divers.
