

BLUE MANTA

Komodo: North and South

Labuan Bajo to Labuan Bajo | Komodo National Park

Komodo's popularity grows with every passing season, thanks to its unique blend of adrenaline-pumping current-fuelled dives and stunning coral reefs.

For big fish or macro, there is something for everyone.

In the crystal clear blue waters of the north, mantas, sharks, turtles, eagle rays and even dolphins can be spotted, and the drift dives are full of action with hunting jacks and sharks.

In the south, the cooler, nutrient-rich waters hide all manner of macro megastars, and you can fly with mantas.

On the last day, a trek on a local island meets the Komodo dragon.
