

BUGIS

Exploring Dampier Strait and Misool aboard Bugis

Sorong to Sorong | Raja Ampat National Park

Raja Ampat is home to seventy percent of the known coral species on the planet, and many of the fish, corals and crustaceans are found nowhere else on earth.

The snorkelling is epic, over vibrant, healthy reefs with high chances of manta rays gliding through shallow cleaning stations.

Sculpted karst islands rise from turquoise water, with a jellyfish lake to swim in, kayaking through narrow limestone corridors and hidden lagoons, and an insane viewpoint over a maze of lagoons.

Before sunrise, a jungle trek leads to the extraordinary Wilson's Bird of Paradise.

The last day brings village jetties above rich fish life and colourful coral gardens.
