

BUGIS

# Komodo Leisure Snorkelling aboard Bugis

*Labuan Bajo to Labuan Bajo | Komodo National Park*

Komodo's underwater world is at least as spectacular as the scenery above it, one of the richest ecosystems on earth in the heart of the Coral Triangle.

Snorkelling here means manta rays, turtles and pristine coral reefs in warm water.

In the channels between the Gili Lawa islands, colourful hard and soft corals and abundant sponges shelter huge clouds of schooling anthias and fusiliers.

A superb reef off a bright sandbank is where mantas and turtles can often be spotted.

On land come a hike to see the Komodo dragons, a gorgeous pink beach and the climb up Padar for sunset.
