

DAMAI II

Raja Ampat Triton Bay

Sorong to Kaimana | Raja Ampat, Pulau Pisang, Mommon and Triton Bay

Triton Bay is famous for its colours along the reef, fed by nutrient rich waters that produce huge fields of soft corals, giant sea fans and clouds of plankton-feeding fish.

Endemic species such as the flasher wrasse and leopard anemone shrimp live here, a thin line wobbegong hides under a table coral, and there may be a chance of whale sharks.

In Raja Ampat, the centre of marine biodiversity in the world, mantas are frequent visitors to the cleaning stations along a sandy channel.

At Momon, you can swim behind a waterfall that drops straight into the sea.

WORTH KNOWING

Key notes

Good to know

The trip is weather dependent and there may be long crossings, and the crew adjusts the plan as best it can

Good to know

Divers must be flexible with the start time of the first dive at some sites, because they can only enter the water once the local village and officers give permission

Good to know

Dive Damai can change the suggested itinerary to suit guests, if weather and time allow and everyone on board agrees
