

Dive in the incredibly rich waters and the area is typified by crystal clear water, deep walls and pinnacles, awesome overhangs and swim-throughs, beautiful pristine corals, huge barrel sponges and large schools of fish of the Forgotten Islands. Go into the microenvironment fed but currents of the Indian and the Pacific oceans of Alor. Below will be the draft itinerary when you are onboard of Damai:

Day 1: Arrive into Saumlaki

Guests will arrive in Saumlaki and have time to get comfortable on the boat. We will start travelling towards the Forgotten Islands once all customer are on board and clearance is granted by the local authorities

Day 2: Pulau Dawera

Some of the healthiest and balanced coral reef. Abundant life which consists of school of bigeye trevally, fusiliers, enormous Napoleon Wrasse, patrolling Dogtooth Tuna and a series of Sharks. A perfect way to complete the trip with the last 2 dives here to enjoy the beautiful reef and amazing fish life.

Dives:

Day 3 and 4: Nils Desperandum & Sika

The best place in Indonesia to have a chance to spot school of Hammerheads. An atoll with walls all around it, large pelagic patrol the reefs, and the ridges in the corners are timing with life, schooling fish, large barrel sponges and fans. Great diving experience.

Day 5: Dai

Tertuti Wall is a beautiful wall carpeted in vibrant orange and yellow softcorals and huge seafans. There are schools of butterflyfish and anthias hanging just off the wall and larger schools further out. With plenty of ledges and overhangs to make the dive interesting, there is even an arch for photo opportunities.

Dives:

Day 8: Nyata

The islands around Nyata boast white sand beaches which stretch into beautiful blue water down to pristine hard coral gardens and walls. An amazing contrast of white sand and isolated coral formations will be our first dive of the day, followed by sheer walls with enormous sponges, overhangs and swim-through. There are plenty of schools of small reef fish but watch the blue for passing pelagic.

Day 9: Reong

Further to the east Wetar provides some good diving on sloping reefs. We will then move further southeast to the sand channels at Nautilus is an interesting dive with some excellent hard coral formations with excellent reef life including giant clams. Schooling grunts, turtles and white tips are to be expected.

Dives:

Day 10: Kalabahi Bay & Pura

Time to change underwater topography. First with 2 dives with sandy muck dive, in Mucky Mosque, in the Kalabahi bay where we can look for wonderpus, and after in the slopes of the Island of Pura, where we will be drifting along a 2 miles long reef, absolutely covered with anemones. A unique experience not to be found in any other place in Indonesia. Let us be careful, as water here tends to drip in temperature, and we can expect them to be around 24 Celsius.

Dives:

Day 11: Pantar Straits

Beautiful walls of macro and wide-angle subjects. Clean walls, abundant life and the always cooperative smile of the local community, specially the children who would like to be your underwater model.

An excellent opportunity to see dolphins, mola mola fins and passing whales of all varieties on the surface.

Day 12: Departure

Guests will be escorted to the airport in Kupang and assisted with check in procedures, no doubt full of talk about the wonders of the most popular dive destination in the world.

DISCLAIMERS

The trip will be weather dependent and there might be long crossing required throughout. We will, try to adjust the best we can to the conditions and fulfil all itinerary briefed when you're on the boat.

Due to the need to report to the local village, divers will need to be flexible with the start time of the first dive at some of the dive sites. We will ensure that you're given timely update on this during the trip, however your understanding on last minute changes would be appreciate. This is because divers are only allowed in the water once permission is granted by the local villages and officers.

Damai is flexible to change itinerary suggested based on customer's preference in the event that weather and time allow us to do so and if changes is agreeable by all participants on board
