

ECOPRO DUYUNG BARU

Komodo to Sumbawa and Saleh Bay

Labuan Bajo and Sumbawa Besar (either direction) | Komodo, Sumbawa and Saleh Bay

Saleh Bay offers the chance to meet a whale shark eye to eye, with resident whale sharks gathering around traditional fishing platforms.

Between Komodo and Sumbawa the route leaves the crowds behind, with fewer boats and the healthy, untouched reefs of western Sumbawa full of life.

Pinnacles, walls and sloping reefs hold reef sharks, turtles and schooling fish, and the macro life is incredible, with pygmy seahorses, nudibranchs and ghost pipefish.

Night dives bring rare critters and glowing plankton.

Above the water are volcanoes, sandbanks and reef lagoons, and a visit to the Komodo dragons.

LENGTH	DEPARTURE PORT	ARRIVAL PORT	EXPERIENCE
10+ nights	Labuan Bajo or Sumbawa Besar	Sumbawa Besar or Labuan Bajo	Advanced

Your route

THE DIVING

Diving highlights

- Saleh Bay (Teluk Saleh): swim with resident whale sharks that gather around fishing platforms (bagans)
- Iconic Komodo sites like Batu Bolong, Castle Rock and Manta Point
- Remote reefs of western Sumbawa: healthy, untouched and full of life
- Pinnacles, walls and sloping reefs with reef sharks, turtles and schooling fish
- Incredible macro life: pygmy seahorses, nudibranchs and ghost pipefish

- Night dives with rare critters and glowing plankton

SNORKELLING

For snorkellers

This route is very rewarding for adventurous snorkellers. Whale shark encounters in Saleh Bay are typically at the surface, making it a highlight even without scuba. Central Komodo and Sumbawa offer vibrant coral gardens and shallow reef edges full of life.

ABOVE THE WATER

Beyond diving

- Whale shark encounter in Saleh Bay: a rare and unforgettable experience
- Remote island stops, uninhabited beaches and peaceful anchorages
- Optional Komodo dragon visit (depending on direction and schedule)
- Breathtaking scenery from volcanoes to sandbanks and reef lagoons
