

EMPEROR EXPLORER 2

Southern Shark Adventure aboard Emperor Explorer 2

Male to Addu or Addu to Male | Seven southern atolls

Atolls with very few resorts and lots of uninhabited islands, and tiger sharks, hammerheads, whale sharks, manta rays and eagle rays to dive with.

Laamu is an oval atoll with some of the top dives in the world, and its fish-filled channels hold schooling snappers, trevally, barracuda, grouper, Napoleon wrasse and turtles.

Huvadhu, one of the deepest lagoons in the Maldives, has channels that are some of the best on the planet, with silvertips, grey reef sharks, often silkies, and whale sharks at night.

At Fuvahmulah, an oceanic island with incredible visibility, tiger, silky, silvertip and thresher sharks and oceanic manta rays are expected, with no baiting or feeding.
