

JAKARE

Komodo & Whaleshark

Labuan Bajo to Sumbawa Besar | Komodo, East Sumbawa, Moyo and Saleh Bay

Whale sharks are sometimes seen in Saleh Bay, calm and rich in marine life, which is the prize at the end of a trip along the Sumbawa coast.

It starts in Komodo with a manta cleaning station, a pinnacle of colourful coral, reef fish and pelagics, and strong currents with schooling fish and reef sharks.

On the way east, volcanic activity sends streams of bubbles up from the seabed of a reef.

Pulau Moyo has healthy reefs, schooling fish and a chance of reef sharks or rays.

Komodo dragons add the land highlight.
