KING NEPTUNE

Komodo North & South

Labuan Bajo to Labuan Bajo | Komodo National Park

Komodo National Park packs coral gardens, strong currents and big animals into six nights.

Central Komodo opens with rich reefs, vibrant reef fish and plenty of small critters.

In the south, a hike up to the Padar viewpoint gives the view the park is famous for, followed by a sunset dive.

The north brings mantas and reef sharks, with drift dives over schools of fish and a morning trek to meet the Komodo dragons.

Reef mantas, turtles and coral bommies fill the last dives back in the central park.
