KING NEPTUNE

Komodo to Alor

Labuan Bajo to Kalabahi | Komodo to the Alor Islands

This route runs from the strong currents of Komodo to the cold upwellings of Alor.

In Komodo you drift past rich coral gardens with reef mantas, turtles and large schools of reef fish.

Thrilling current dives follow, with reef sharks, trevallies and swirling barracuda.

Heading east, vibrant macro reefs hold frogfish, ghost pipefish and ribbon eels among pristine soft coral.

Alor is the prize, with mola mola in the cold upwellings, dramatic walls with sea snakes, and coral plateaus where rhinopias and pygmy seahorses turn up.
