KING NEPTUNE

Raja Ampat - 12 Days / 11 Nights

Sorong to Sorong | Misool, Penemu, Wayag, Yanggefo and Dampier Strait

Extra time in the hotspots of North and South Raja Ampat means this route can linger where the diving is best.

In the south, seamounts and coral walls hold pygmy seahorses, batfish and hunting trevallies, with fusiliers, reef sharks and turtles over reefs swarming with fish.

Underwater caves and submerged rock formations lead on to pristine coral gardens and schooling fish in the centre.

In the north, dramatic underwater topography brings reef sharks, mobulas and manta rays, then mangroves and reefs full of life from macro to pelagics.

The last dives are over cleaning stations frequented by turtles, napoleon wrasse and blacktip sharks, after a night dive for mandarinfish.
