

## THINGS TO KNOW

### Length Of Trip

8 Days / 7 Nights

### Park Fees

US \$ 220

### Departure

🕒 Pick Up At 08.00 A.M.

📍 Labuan Bajo

✈️ Labuan Bajo (LBJ)

### Return

🕒 Until 11.00 A.M.

📍 Labuan Bajo

✈️ Labuan Bajo (LBJ)

### Dives

Approximately 23 dives  
in total

### Experience

Open Water – 40 minimum  
logged dives required

- Prices listed are net payable and based per person, they are inclusive of National and Localised Taxes.
- You will embark and disembark La Galigo in Labuan Bajo, Flores.
- Please check your visa requirements for entering Indonesia, all passports must have at least 6 months remaining on them when entering the country.
- All guests are required to have valid travel and diving insurance (including Medevac) for the duration of their trip. La Galigo is a recognised D.A.N. partner and can assist you with the purchase of a short-term dive insurance policy.
- To partake in any scuba diving activity with La Galigo, you must hold a certification from a recognised scuba diving society such as SSI, CMAS, BSAC, PADI or similar. It is the client's responsibility, as a certified diver, to respect and follow the guidelines given by the La Galigo guides and instructors, and to follow the regulations stipulated by their certification agency.
- All dives are conducted to a maximum depth of 30 metres/100 ft.
- Average water temperatures in Komodo vary between 22 – 29 Celsius / 72 – 84 Fahrenheit.
- The best time of year to dive in Komodo is May to October.
- BYO alcohol policy.

# INCLUDES

- Transfers to and from the harbour from your hotel or the airport on the day of embarkation and disembarkation.
- All meals and post dive refreshments / snacks, coffee and tea.
- Diving services including 12L tanks, weights and belts , SMB & reel, reef hook, air fills, dive computers, snorkelling equipment, dive guides and dive tenders.
- Land excursions where applicable.

# HIGHLIGHTS

- Tour Komodo national park in its fullest, from the action-packed North to the slightly colder, yet amazing topographies found in the South.
- Hike up Pulau Padar to take in the breath-taking lookout point that has become synonymous with Komodo.
- In favourable conditions, take in some of the more remote dive sites found in the area, such as Manta Alley and Cannibal Rock.
- Discover the isolated population of beach going Komodo Dragons in Pulau Rinca.
- Take the opportunity to grab some sunset photos at the infamous Pink Beach located on the island of Komodo.
- Enjoy a top deck Al Fresco BBQ prepared by our wonderful chefs whilst we moor at Pulau Kalong, host to a daily migration of resident fruit bats waking up in search of a meal.

## DAY 1

# LABUAN BAJO

We will collect you from your hotel or Labuan Bajo airport between 8:00 – 9:00 A.M. on the day of departure to welcome you onboard La Galigo.

After a refreshing welcome drink, a quick breakfast, and a safety briefing of our vessel, we aim to anchor up around 10:00 am from Labuan Bajo.

After around two hours of sailing, we will arrive at our first destination, the islands of **Sebayur Kecil** and **Sebayur Besar**, where we will conduct two dives after lunch. We have identified Sebayur as a fantastic, calm introduction for your first day in the park.

These two great little islands are well sheltered from the infamous currents around Komodo, allowing you a great opportunity to practice using your SMB, cameras, dive computers, or just to get back into the swing of things after a lengthy layoff from diving.

## DAY 2

# WEST KOMODO

After a morning dive at stunning **Tatawa Besar**, we go in search of Manta rays at the world-class dive site **Manta Point** (known to the locals as **Karang Makassar**).

After lunch, we will head to one of the highlights of Komodo diving the **Golden Passage** which is a drift dive that offers outstanding coral reef topography, as well as encounters with schools of Sweetlips and Snappers, White Tip Reef Sharks and the occasional passing Manta Ray.

Later that afternoon, we set sail for the northwest part of Komodo, for a light trek on the island of **Gili Lawa Darat**, to witness an amazing Komodo sunset, dipping behind the nearby active volcano of **Sangeang**.

For the night dive, we will stay in the bay close to the trekking area, and dive at the site **Stranger Things**, for a chance to get your first glimpse of macro life in the national park.

## DAY 3

# NORTHWEST KOMODO

Day three is our personal favourite in terms of diving, and all three of the dives normally conducted on this day are what we would consider unforgettable.

The morning is spent on both **Crystal Rock** and **Castle Rock**, two submerged pinnacles that are home to an abundance of marine life. Teams of hunting Giant and Big-Eye Trevally patrol the blue waters of the reefs, chasing large schools of smaller fish. Eagle Rays glide effortlessly in the currents whilst the reef sharks hunt for their next meal.

The afternoon sees us visit the legendary dive site known as **The Cauldron (a.k.a The Shotgun)**. Famous for its rip-roaring drift dive, it is akin to an underwater rollercoaster that needs to be experienced to be believed, and a 'bucket list' dive site for divers from across the world. Hold on until the end of the dive for a big surprise

The night dive will be spent diving on **Komodo Bay**, depending on mooring conditions.

## DAY 4

# SOUTHWEST KOMODO

We wake early in the morning to take in one of Komodo's world-class golden sunrises, followed by one of its best dive sites, **Batu Bolong**, which presents us a chance to see large pelagic species such as Giant Trevally and Barracuda, as well as sharks and Napoleon Maori Wrasse.

During breakfast, La Galigo will anchor up and head south into the centre of the park, where we will endeavour to dive **Tatawa Kecil** with its strong currents and curious rock formations and swim throughs, this dive site is a high action topographical wonder.

Up next is **Siaba Besar**, a fantastic night dive for the macro photographer, where it is possible to encounter Flamboyant Cuttlefish, Ghost Pipefish, various types of Nudibranchs, as well as the elusive Wunderpus and Blue-Ringed Octopus!

## DAY 5

# SOUTHWEST KOMODO

Staying around the Southwest Komodo area, we will dive **Police Corner** if conditions are favourable, one of the less-known but utterly amazing sites in Komodo.

In the late morning we plan to visit the island of **Mauan**, where Mantas come to visit its cleaning station, although shallow there is strong currents here that bring the Mantas in to play.

The afternoon will see us travel to **Pink Beach**, a gorgeous, shallow coral garden with schools of sweetlips and other colourful reef fish.

We then sail on to **Soro Lia Bay** for our exciting night dive.

## DAY 6

# SOUTH KOMODO AND PADAR

Undisputedly, **Manta Alley** is among the top draws of southern Komodo diving, where sizable aggregations of Manta Rays often come to feed and clean in the splendid reef among these peculiar-looking rocks. We will dive into this incredible site before heading to **Padar Island**, the location of the spectacular views you may associate with the national park after an online search for 'Komodo'.

Padar is also home to some great south Komodo dive sites including **Pillarsteen**, which is the best wall dive in this region. Do note that it is difficult for us to confirm individual dive sites in advance due to changing ocean conditions in the south. However, the area is vast enough for us to be able to plan ahead and identify sites closer to the time (that are slightly more sheltered from any southerly conditions if they are unsteady during your trip).

In the afternoon we will make the trek up this unique-looking island for some stunning views over the park, followed by our night dive, which is regularly conducted at **Padar Wreck**, where we often encounter a population of Giant and other species of frogfish.

## DAY 7

# KOMODO ON FOOT

The final dive of your trip will be at **Wainilu**, a gorgeous, easy, shallow sandy slope with the chance to see macro critters such as Bobtailed Squid amongst the sand and fleshy marine vegetation.

After the morning's diving and a hearty breakfast, we head on foot to **Rinca Island**, home to the legendary Komodo Dragons in the park.

Later that afternoon La Galigo anchors up and sets sail east to **Pulau Kalong**, where at sunset an epic number of fruit bats leave this island in search of their sustenance on the mainland of Flores.

The night time sees our crew arrange a fancy BBQ banquet on the top deck as you take in your final Komodo sunset.

## DAY 8

# DISEMBARK IN LABUAN BAJO

La Galigo will be anchored up in the morning around 2:00 A.M. in Labuan Bajo, in preparation for you to catch your flight, or check in to your hotel.

Guests are welcome to stay onboard until 11:00 A.M., during which we have the chance to exchange trip images, and contacts so you can keep in touch with newfound dive buddies while we assist you with transportation to your desired location.

\*La Galigo does not guarantee this outlined itinerary, and it is to be considered as a rough guideline. We may dive a couple of times in one particular dive area. Information compiled here is based on past trips we have conducted, and includes common dive sites and routes we often visit. Weather and sea conditions in the area can be unpredictable, and La Galigo retains the right to alter an itinerary from advice of the ship's captain, cruise director, or owner for the safety of the vessel, its passenger and crew.
