

JELAJAHI LAUT

Raja Ampat Central and North

Sorong to Sorong | Dampier Strait, Fam Islands and Wayag

The Dampier Strait is the most famous and fish-dense part of Raja Ampat, with one reef holding the record for the most fish species on a single dive, among barracuda, jacks and reef sharks.

Schooling fusiliers, snappers and mobula rays fill the water, and a pinnacle attracts reef and oceanic mantas.

The Fam Islands are known for their scenery and reefs, with a sprawling hard coral garden and excellent coral and pelagic sightings.

In the far north around Wayag, unusual rock formations have healthy reefs and night dives for critters and seahorses.

A climb to the viewpoint at Wayag gives a panorama of the karst islands.
