

NEPTUNE ONE

Raja Ampat North & South

Sorong to Sorong | Misool, Penemu, Yanggefo and Mioskon

Raja Ampat is the world's richest and most biodiverse dive destination, and this route shows it from Misool to the northern reefs.

In Misool, picturesque coral gardens are crowded with sweepers, glassfish and juvenile fusiliers streaming past in the current, while multi-peaked seamounts, undercut karst islands, deep caves and walls fill the next dives.

Penemu has offshore ridges, seamounts and thrilling drifts over one of Indonesia's most photographed shallow reefs.

Yanggefo is mangrove-lined reef with vibrant coral and waters filled with schools of fish and sharks.

Above the water, a heart-shaped lagoon among the karst hills is the best view.
