

ONDINA

Komodo & Sangeang

Bima to Labuan Bajo | Sangiang, Banta, Gili Lawa and Komodo

Action diving comes first on this route, on underwater mounts covered in soft coral and packed with schools and sharks.

The volcanic island of Sangiang has a beautiful coral garden at the foot of a volcano, with bubbles from underwater vents emerging from the black sand.

At Banta a seamount draws sharks and trevallies.

Then the classic Komodo sites arrive, with a pinnacle rising from the depths that concentrates large amounts of sea life, and an underwater mountain literally covered in marine life and invertebrates.

Hundreds of fruit bats leave at sunset to round it off.
