

ONDINA

Raja Ampat Central & North

Sorong to Sorong | Dampier Strait, Aljui Bay, Wayag and Fam

Wayag is the postcard of north Raja Ampat, with limestone islands topped with greenery and surrounded by turquoise lagoons, and a climb to a viewpoint above them.

The soft limestone creates caves, canyons, passages and swim-throughs on almost every dive.

The fabulous reefs of the Dampier Strait come first, and on the way north the boat crosses the Equator for a full day around Kawe.

More than 75 percent of the world's reef-building coral species occur here, with over 1,400 species of fish, more than 20 of them endemic.

The jetties of Fam and Arborek bring night diving, and an early trek into the forest finds the birds of paradise.
