

PINDITO

Raja Ampat

Sorong | Misool, Waigeo and Dampier Strait

Raja Ampat lies in the Coral Triangle, with pristine reefs reputed to be the most biodiverse marine habitat on Earth.

Schools of fusiliers and jacks sway in the currents, bumphead parrotfish chomp away at the corals, and shy Denise's pygmy seahorses hide among gorgonian coral.

Reef sharks patrol the reefs, alongside majestic mantas, rare wobbegong and epaulette walking sharks, and schools of big eye trevally and barracuda.

Misool's endless maze of islands is paradise for macro enthusiasts, with huge shoals of sardines and soft corals and sea fans three to four metres across.
