GOOD TO KNOW

On land and on the way

South Male

Steep walls covered with soft corals, gorgonians and sponges, a colour show for photographers. In some months manta rays are joined by dozens of whale sharks feeding on plankton, and there are grey reef sharks and, less often, leopard, nurse, oceanic whitetip and hammerhead sharks.

Felidu

Splendid channels, ideal for drift diving, with large schools of fusiliers, coral formations, reef sharks and turtles. Experienced divers may see hammerheads over the passes, and manta rays are common in the rainy season.

Mulak

Ocean passes, manta points and inner and outer reefs, with nudibranchs, shrimp, soft and hard corals, grey, whitetip and nurse sharks, manta rays and eagle rays.

Thaa

Diving for beginners, although the best sites have strong currents that need experience. The famous Gorgonian Garden has frequent manta rays, turtles and schools of fusiliers, with many crustaceans and nudibranchs.

Laamu

Good for less experienced divers, with few currents and very clear water. Manta rays at cleaning stations are on the programme, with pipefish, reef sharks and curious groupers.

Typical day

Wake up at 06:30. Briefing and first dive at 07:00, breakfast at 09:00, second dive at 11:00, lunch at 13:00 and a third dive at 15:30 where the day allows it. Snack and an island visit at 17:00, aperitif at 19:00 and dinner at 20:00.

Non-divers

Non-divers can join in every day with two of these guaranteed: snorkelling, a sandbank landing, visits to deserted and inhabited islands, and bottom fishing or trolling.

On board

A jet ski, a slide and an inflatable pool, and a jacuzzi on the main deck. Aperitifs and barbecues are held on deserted islands.

Check in

The crew meets you at the airport and takes you to the boat. The check in is followed by a welcome briefing.

Check out

Disembarkation is in the morning, with a transfer to the airport for the flight home.
