PRINCESS MAANI

10 Atolls, 2 Hemispheres: Way Down

Male to Addu | Ten atolls from North Male to Addu

Ten atolls and two hemispheres, crossing the Equator on a long run south through the Maldives.

Channels in Vaavu hold grey reef sharks, with friendly nurse sharks on a night dive, and Huvadhoo has walls of grey reef sharks, hammerhead schools and hundreds of green turtles.

Laamu brings eagle rays in formation, silvertip sharks and dogtooth tuna.

Fuvahmulah, a single island in the middle of the Indian Ocean, offers chances of tiger sharks, hammerheads and thresher sharks, and sometimes oceanic mantas and whale sharks.

The southernmost atoll, Addu, adds reef mantas at the cleaning stations and a wreck that is a must.
