

SPIRIT OF THE MALDIVES

Explore the Far North

Hanimaadhoo to Male | Haa Alifu, Shaviyani, Raa, Baa, Lhaviyani and North Male

The expedition starts in the northernmost reaches of the Maldives, about 180 miles north of Male, with reefs that few divers see.

Shaviyani is lesser visited water with vibrant reefs, and shark and manta points.

Raa has reefs far from the crowds, and Baa has manta and shark points chosen by an experienced crew.

In the north-east season, from March to April, there is a rare chance to see blue whales and sperm whales in the Eight Degree Channel.
