

SPIRIT OF THE MALDIVES

Manta Magic Expedition

Male to Male | North Ari, South Ari, Rasdhoo, Baa, Raa and North Male

A route planned around manta rays, linking the cleaning stations and feeding areas where mantas gather.

In North Ari the mantas hover while small wrasse clean them, and South Ari and Rasdhoo have more cleaning stations and more chances to find mantas on the dives.

Between May and November mantas gather to feed on plankton in Hanifaru Bay, a protected spot visited by permit for snorkelling, with a ranger present.

The route follows the manta trail through Raa and North Male, with a chance of night dives with mantas.
