Sorong to Sorong | Waisai, Dampier Strait, Arborek, Yengello, Pianemo and Misool

Raja Ampat is a true paradise, with crystal-clear waters, thousands of limestone islands and exceptional marine biodiversity.

One reef is among the most biodiverse on the planet, with a record 293 species recorded by experts on a single dive, and near the village of Arborek majestic manta rays glide in.

Misool brings thousands of huge soft corals on a drift, vertical walls with amazing soft coral cover and schools of platax and snapper.

Wobbegong sharks hide in the reef, and two huge rocky openings that pierce an island erupt with fish and colour.

Above water, a lake of thousands of harmless jellyfish and a star-shaped lagoon viewpoint are waiting.
